Jelen füzet anyagának feldolgozási módja szinte mindenben megegyezik az előzőével. Az egyes rövidítéseket követi a feloldás, majd - amennyiben megállapítható volt - az illető terület székhelyének, esetleg az országnak megnevezése, ezt követően pedig annak a nyelvnek betűjele, amelyből a rövidítés származik. A székhelyül szolgáló, gyakran előforduló városokat ugyancsak betűrövidítések jelzik. A szig-lák feldolgozásánál, az egyöntetűség biztosítása céljából követtük a nemzetközi rövidítésgyűjteményeknek azt a gyakorlatát, hogy a latinbetűs részben - a partikulák kivételével - minden szót nagy kezdőbetűvel irtunk. Ha ugyanazon testületnek több, változó betűértékű rövidítése van, úgy a teljes feloldást csak egyik alaknál adtuk meg, s a változatoknál egyenlőségjellel utaltunk arra a helyre, ahol a teljes feloldás található. Ha egy rövidítés a gyakorlatban változó alakokkal ugyan, de azonos betűértékkel /pl. csupa nagybetűvel vagy részben kisbetűvel stb./ is előfordul, gyűjteményünkben a különböző formai változatok feltüntetéséről kénytelenek voltunk lemondani.

Könyvtárosi és dokumentációs célkitűzéseinkből következően, könyvünk az un. kurrens rövidítések mellett a multba is visszanyult anyagért,- bár ilyenirányu gyűjtésünk nem lehetett oly szisztematikus, mint az élő anyagra vonatkozó. Sajnos, ez utóbbi vonatkozásban is kénytelenek voltunk - a terjedelemre való tekintettel - bizonyos szelekciót alkalmazni.

Mint hogy könyvünk elsősorban a magyar szakemberek használatára készült, a magyar sajátosságoknak megfelelően, a latinbetűs ábécében az ö és ü betűt önálló betűként szerepeltetjük, az o és u után. Az un. diakritikus jeleket a betűrendi beosztásban nem vettük figyelembe. A cyrill-ábécében természetesen külön szerepelnek az ukrán "i" és szerb "j" betűvel kezdődő rövidítések. /Célszerűségi szempontból a latin-, illetőleg cyrillbetűs anyag itt is külön ábécébe került./

Предисловие

Метод разборки материала настоящего справочника почти полностью аналогичен разработке предыдущего справочника. За отдельными сокращениями следуют полные названия, а затем — если это оказалось возможным — название административного центра данного района или страны, а затем указывается буквенное обозначение языка, от которого происходит сокращение. Столицы и наиболее встречающиеся города указаны также лишь буквенными сокращениями. При разработке сигл, руководствуясь соображениями обеспечения единообразности, нами преследовалась практика составления сборников международных сокращений, при которой в разделе с латинскими буквами — за исключением партикул — каждое слово выписано с большой начальной буквы. Если одна и та же организация имеет несколько сокращений с различными буквенным обозначением, то полное название дается лишь в связи с одной из разновидностей, а у остальных знак равенства указывает на место нахождения полного названия. В том случае, когда сокращение в практическом применении встречается в различной форме, но с одинаковым буквенным обозначением /напр. пишется только заглавными буквами, или же отчасти строчными буквами, и т.д./, редакция оказалась вынужденной отказаться от приведения в рамках настоящего справочника всех разновидностей.

Исходя из задач библиотечной и документационной работы, наш справочник наряду с т.н. курентными ходиками сокращениями включает и укоренившиеся в прошлом материалы.

В этом отношении, собранный нами материал, конечно естественно, не является столь систематичными, как материал настоящего времени. К сожалению, ввиду большого объема, и в связи с последним необходимо было прибегнуть к некоторой селекции материала, предлагаемого к изданию.

Ввиду того, что справочник предназначен, в первую очередь, к использованию венгерскими специалистами, учитывая особенности венгерского языка, буквы ö и ü приведены самостоятельно вслед за буквами o и u. Т.н. диакритические знака не учитываются в алфавитном порядке. В алфавите кириллицы, естественно, отдельно фигурируют сокращения, начинающиеся с украинской "і" и сербской "ј". /В интересах целесообразности здесь также по отдельности составлены материалы, относящиеся к латинской и кирилловской азбуке/.

The method of treatment of the material of this fascicle is nearly identical with that of the preceding one. Abbreviations are followed by full names and, wherever it was practicable, the residence or country of the institution and the letter symbol of the language the abbreviation comes from. Frequently occurring names of towns of residence are abbreviated, too. In agreement with the practice of international dictionaries of abbreviations, in writing out sigla of Roman characters, with the exception of particles the initials of every word were printed in capital letters. For several different abbreviations of the same institution the full title has been given only once, and at the variants a sign of equality points to the place where the full name is found. For abbreviations composed of the same letters but used in various forms /say, fully capitalized or partly with lower-case letters/ we had to give up the insertion of all variants.

Our work being destined for use for librarians and as a documentation, we had to look for material also from the past - though this part of our compilation could not be as systematical as that of living material. We are sorry to say that, for lack of space, we were compelled to adopt some selection also in the latter case.

The book will be used, in the first line, by Hungarian specialists. This is why, following the characteristics of the Hungarian language, ö and ü have been treated as independent letters in the Romanic alphabet, after o and u. Diacritics have not been taken into consideration in the alphabetical order. Naturally, in the Cyrillic alphabet abbreviations beginning by an Ukrainian "i" or a Serbian "j" have been treated separately. /For practical considerations the sections in Romanic and in Cyrillic characters are arranged in alphabetical order separately also here./

En ce qui concerne la mise au point des matériaux de ce cahier, elle suit à peu de choses près, celle des cahiers précédents. Les abréviations sont suivies de leur explication, ensuite-toute les fois que cela a été possible - nous avons indiqué le nom du chef-lieu du territoire en question, en certains cas le nom du pays, puis le signe de la langue fournissant l'abréviation. Les villes représentant des chefs-lieux figurant plus fréquemment, sont également indiquées sous leur forme abrégée. Soucieux de sauvegarder l'uniformité, nous avons suivi, en ce qui concerne les sigles, l'usage général des recueils d'abréviations internationales qui consiste à écrire chaque mot dans la parrie en caractères latins, avec une majuscule, sauf, bien entendu, les particules. Si la même institution est connue sous plusieurs noms abrégés, nous nous sommes contentés d'indiquer le nom complet une seule fois, en renvoyant ailleurs par un signe d'égalité, à l'endroit où le lecteur trouvera le nom complet. Là où une abréviation se répète dans la pratique sous plusieurs formes, mais avec les lettres toujours identiques /par ex. avec seulement des majuscules ou en partie avec des minuscules, etc./ nous nous sommes vus obligés de renoncer à rendre l'ensemble des variantes.

Conformément à notre but, qui est de fournir une aide aux bibliothécaires et au travail de documentation, nous donnons en plus des abréviations courantes, aussi des matériaux plus anciens, quoique, bien entendu, sous ce rapport, notre travail n'ait pu être aussi systématique que pour les matériaux modernes. Quant à ses derniers, la limitation de l'étendu du volume nous a contraints d'opérer une certaine sélection.

Étant donné, que le cahier est destiné avant tout à des spécialistes hongrois, les lettres ö et ü de l'alphabet latin figurent sous forme indépendante, après les lettres o et u. L'ordre alphabétique n'a pas tenu compte des signes diacritiques. Dans l'alphabet cyrillique nous avons naturellement distingué les abréviations commençant par un "i" ukrainien et un "j" serbe. /Pour des raisons d'utilité, les matériaux en caractères latins et les matériaux en caractères cyrilliques ont été groupés, ici aussi, selon un ordre alphabétique différent/.

Die Aufarbeitungsmethode des Materiels ist im vorliegenden Heft mit der des vorangegangenen identisch. Den einzelnen Abkürzungen folgt die Auflösung, anschliessend - insofern dies festzustellen war - die Benennung des Sitzes des betreffenden Gebietes evtl. des Landes, ferner das Schriftzeichen jener Sprache, aus der die Abkürzung stammt. Die als Residenz dienenden, öfter vorkommenden Städte werden ebenfalls durch Buchstabenabbreviationen kenntlich gemacht. Bei der Aufarbeitung der Sigel haben wir im Interesse der Gleichförmigkeit die bei den internationalen Abbreviationssammlungen angewandte Praxis befolgt, laut der wir im Teil mit lateinischen Lettern - mit Ausnahme der Partikeln - jedes Wort mit grossem Anfangsbuchstaben schrieben. Sollte dieselbe Körperschaft über mehrere Abkürzungen von variablem Charakter verfügen, so wurde die Auflösung nur für eine Form angegeben und bei den Varianten mittels Gleichheitszeichens auf jene Stelle hingewiesen, wo die volle Auflösung zu finden ist.

Falls eine Abkürzung in der Praxis zwar in einer veränderlichen Form, jedoch auch mit identischem Buchstabenwert /z.B. mit lauter grossen oder teils auch mit kleinen Buchstaben/ vorkommt, mussten wir bei unserer Sammlung von den verschiedenen Variationen der Form Abstand nehmen.

Unser Buch grifft - den bibliothekarischen und dokumentarischen Zielsetzungen folgend - neben den sogenannten kurrenten Abkürzungen - auch auf die Vergangenheit zurück, obwohl unsere Sammlung in dieser Richtung nicht so systematisch sein konnte wie die auf das lebende Material bezügliche. Leider sahen wir uns gezwungen, auch diesbezüglich - mit Rücksicht auf den Umfang - eine gewisse Selektion vorzunehmen.

Nachdem unser Buch in erster Linie ungarischen Fachleuten dient, liessen wir - den ungarischen Eigenarten entsprechend - die Buchstaben ö und ü des lateinischen Alphabets als selbständige Buchstaben hinter o und u einschalten. Die sogenannten diakritischen Zeichen liessen wir bei der alphabetischen Einteilung unbeachtet. Natürlich wurden im cyrillischen Alphabet die mit dem ukrainischen "i" und dem serbischen "j" beginnenden Abkürzungen gesondert aufgeführt. /Vom Gesichtspunkt der Zweckdienlichkeit wurde das mit lateinischen bzw. cyrillischen

Buchstaben beginnende Material auch hier einem gesonderten Alphabet zugeteilt./
