Introduction .....	3
List of symbols .....	4
Bibliography .....	5

## INTRODUCTION

The first two bibliographies on Analytical and Sampling Problems of a PWR Primary Coolant (KFKI Report-1980-48 and KFKI Report-1981-97) were published in 1980 and 1981, and covered the literature published in the previous 8-10 years.

The present Supplement II reviews the subsequent literature up till June 1983. It also includes some references overlooked in the first two volumes. The serial numbers are continued from the first two bibliographies. Cross-referencing was not intended.

This bibliographical Supplement II is arranged in alphabetical order; within each topic the references are listed alphabetically according to the name of the first author of each work.

Works are in English unless otherwise marked.

Notification of any errors and references which have been overlooked will be gratefully received.

LIST OF SYMBOLS

	page
B boric acid	5
Cl chloride, chlorine	7
G general	7
GA gas analysis	9
H hydrogen isotopes: hydrogen, deuterium, tritium	10
I iodine, iodide	11
NG noble gases and radium	12
NH <sub>3</sub> ammonia, ammonium	13
O oxygen	13
OE other elements	14
RM radiation monitoring	15
RS reactor safety	17
S sampling	18
WCh water chemistry	19
Cz in Czech	
F in French	
G in German	
H in Hungarian	
J in Japanese	
R in Russian	
HTR high temperature reactor	
LWR light water reactor	
NPP nuclear power plant	
PHT primary heat transport	
PWR pressurized water reactor	
TMI Three Mile Island	

IAEA-SM-264 International Symposium on Water Chemistry and Corrosion  
Problems of Nuclear Reactor Systems and Components, Vienna, Austria,  
22-26 Nov 1982.

IAEA-SM-Leningrad, 1983 IAEA Specialists' Meeting on the "Influence of water  
chemistry on fuel element cladding behaviour in water cooled power  
reactors", Leningrad, USSR, 6-10 June, 1983.

Juel-Conf-43 Seminar of the KTG-expert group "chemistry and nuclear waste  
disposal" and the KFA Jülich, Germany, F.R. 5 Nov 1981.

W.Ch. II, BNES, London, 1981 Proc. of International Conference on Water  
Chemistry of Nuclear Reactor Systems and Components, Vienna, Austria,  
22-26 Nov 1982.
